BOARD DIPLOMA EXAMINATION, (C-20)

MARCH/APRIL—2025

DECE – FIFTH SEMESTER EXAMINATION

COMPUTER HARDWARE AND NETWORKING

Time : 3 Hours]

[Total Marks : 80

PART—A

3×10=30

Instructions : (1) Answer **all** questions.

(2) Each question carries **three** marks.

(3) Answers should be brief and straight to the point and shall not exceed five simple sentences.

1. What is the function of chipset?
2. List any six features of DDR2 SDRAM.
3. State the need for installation of device drivers.
4. Define the Power-On-Self-Test (POST).
5. Define computer network and state its use.
6. Define network topology.
7. State the features of Bluetooth technology.
8. List the features of Transmission Control Protocol (TCP)
9. State the use of repeater.
10. State the need for protocols in computer networks.

PART—B

8×5=40

- Instructions :** (1) Answer **all** questions.
(2) Each question carries **eight** marks.
(3) Answers should be comprehensive and criterion for valuation is the content but not the length of the answer.

11. (a) Explain various SMPS power supply connectors used in PC-AT.

(OR)

(b) Explain the working of hard disk and its data access.

12. (a) Explain the steps involved in the installation of windows OS.

(OR)

(b) Explain the steps in assembling a PC.

13. (a) Explain bus, star and ring network topologies.

(OR)

(b) Explain the functions of data link layer and physical layer of ISO : OSI seven layer reference model.

14. (a) Explain the cross-sectional diagrams of UTP, STP, co-axial and fiber optic cables and their use in networking.

(OR)

(b) Explain circuit switching and packet switching.

15. (a) Explain about classful addressing in IPv4.

(OR)

(b) Explain file transfer operation using FTP.

PART—C

10×1=10

- Instructions :**
- (1) Answer the following question.
 - (2) The question carries **ten** marks.
 - (3) Answer should be comprehensive and the criterion for valuation is the content but not the length of the answer.

16. Explain the packet transfer mechanism using routers and IP address.

★★★
